

QtSAS >= v.2021-01-01

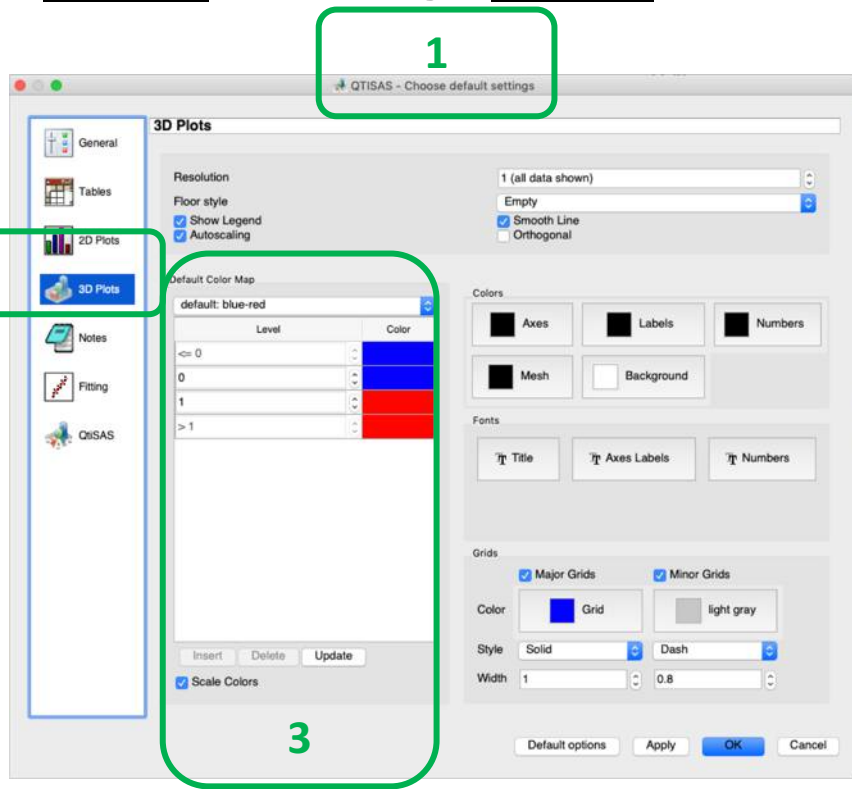

QtSAS::FAQs :: Default Color Map

Q.1: where to change default color map?

Q.2: how to change default color map?

Q.3: which color maps integrated to QtSAS always?

Q.1: where to change default color map?

1&2: Menu: Edit | Preferences... | 3D Plots
3: „Default Color Map“ tab

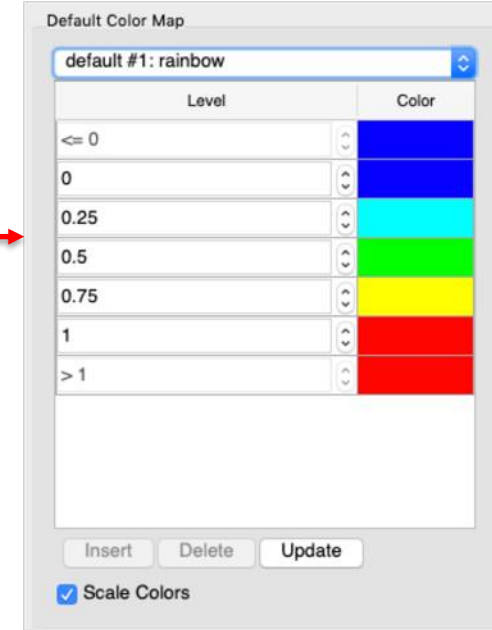

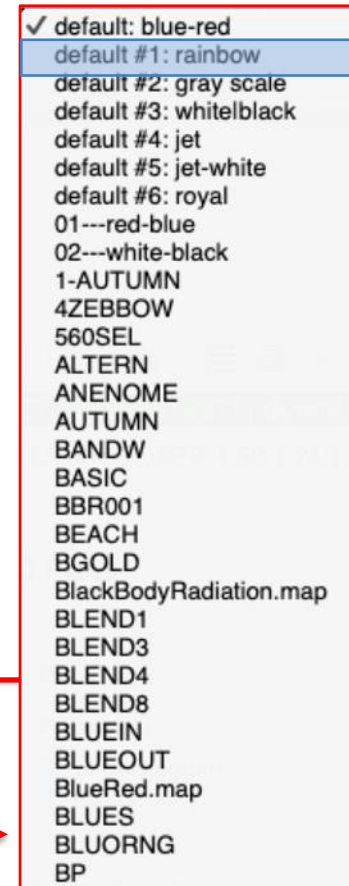

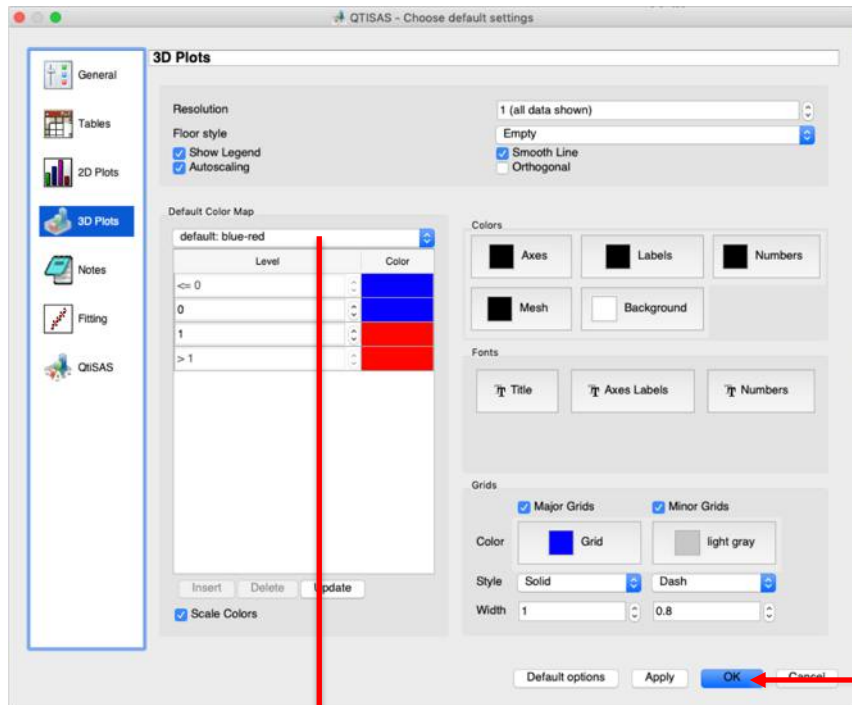

1: drop-down list with all available color maps
2: Scaling levels and corresponding colors

Level=0 -> corresponds to the minimum
Level=1 -> corresponds to the maximum

After QtSAS installation: “default: blue-red” map is active

Q.2: how to change default color map?

default: blue-red

- Menu: Edit | Preferences... | 3D Plots
- „Default Color Map“ tab
- Select Color Map from the drop-down list
